

1. IEEE BASED ON CLOUD COMPUTING

- 1. Permissive Cloud Stockroom Auditing with derivable Outsourcing of Solution Updates**
- 2. Conjunctive Keyword Discover with Nominated Tester and Timing Enabled Assistant Re-encryption Purpose for E-health Clouds**
- 3. An Online Device for Contribute Portion and Pricing in Clouds**
- 4. Privileged Optimization Calculation Outsourcing in Cloud Computing: A Case Study of Linear encoding**
- 5. A Gallows for Instantly Online Auctions in Cloud Computing with Mixed User Injure**
- 6. Solitude Preserving Ranked Multi-Keyword Explore for Several Information Owners in Cloud Computing**

II. IEEE BASED ON ARTIFICIAL INTELLIGENCE

- 1. Inflection Authority Implementation With Tongue Recognition And Synthesizer (A Voice Interface)**
- 2. Capable Supportive Spatial Keyword Indecision Dispensation on Boulevard Networks**
- 3. Knowledge Modified Models for Facial Exterior Study and Signal Admiration**

III. IEEE BASED ON BIGDATA

- 1. Accelerated PSO Swarm Examine Characteristic Alternative for Data Inundation Taking out Big Data**

- 2. A Framework-Based Loom to Efficacy Huge Figures Analytics**
- 3. On a New Prototype for Accretion Trading Through a Model-Free Response Controller**

IV. IEEE BASED ON BIOMEDICAL & IMAGE MINING

- 1. Hemorrhage Configuration and Province Disclosure in the Wireless Container Endoscopy Video**
- 2. Spontaneous Segmentation of MR Brain Descriptions with a Convolutional Neural Network**

V. IEEE BASED ON DATAMINING

- 1. Location Immediate Keyword Indecision Suggestion Based on Document Immediacy**
- 2. Judgment Group-by Operators for Multi-dimensional Relational Information**
- 3. A Mobility Exploratory Scaffold for Big Mobile Data in Efficiently Engaged Part**

VI. IEEE BASED ON IMAGE PROCESSING

- 1. Vehicle Authorize Safeguard Exposure Based on Extremal Province and Restricted Boltzmann Machinery**
- 2. CVD2014—A Record for Appraise No-Signal Video Quality Dimension Algorithms**

VII. IEEE BASED ON INFORMATION SECURITY

- 1. Figure Out Defeat in Images Based on QIM and OVSF**
- 2. Biometric-Facilitate Corroboration Equipment: A Inquiry of Open-Set Real-World Utilization**
- 3. What Else Does Your Biometric Information Unveil? A Analysis on Elastic Biometrics**

VIII. IEEE BASED ON MOBILE APPLICATION

- 1. Escalating Apps for Optically Defective Citizens: Instruction Intellectual from Study**
- 2. A Mobility Diagnostic Construction for Huge Mobile Data in Compactly Inhabit Province**

IX. IEEE BASED ON NETWORK SECURITY

- 1. Unstable Statistics Overcome in Encrypted Image with Distributed Institution Indoctrination**
- 2. Modeling and Substantiation of Online Shopping Commerce Processes by Considering Spiteful Tricks Patterns**
- 3. Aligning the Pressure of Professed Cybercrime Exposure on Online Examine Escaping**
- 4. Flexible Steganalysis Based on Embedding Contingency of Component**

X. IEEE BASED ON NETWORKS

- 1. Difficulty Gratitude in 802.11 Networks: Experimental Guesstimate of Terrorization and a Public Dataset**
- 2. Two-Phase Sympathetic Transmission Based on Batched Network Secret code**

XI. IEEE BASED ON SECURE TRANSMISSION

- 1. Wireless Information and Pressure Displace for Multi-Relay Assisted Compassionate Proclamation**
- 2. Assessment Anthology for Masterwork with QoS Correlations**

XII. IEEE BASED ON VISUAL CRYPTOGRAPHY

- 1. Dynamism of text-based Utterly Programmed public turing
Analysis to tell computers and humans Alone**

XIII. IEEE BASED ON WEB MINING

- 1. Mark Based Depiction Inspect by Community Re-ranking**
- 2. A Spot Advance on Significant Illustration With
Multidimensional Various Information**
- 3. Aficionado-Service Ranking Anticipate by Exploring Social
Users' Appraisal Behaviors**
